

Home Learning Project – Spring Term Two

For this half term's project, we would like you to design a game or a puzzle aimed at younger children who would like to learn more about the Antarctic.

You could include one topic of:

- Wildlife;
- Landscape;
- Famous explorers;
- Names of places on the Antarctic continent

You might choose one topic or add a variety.

Possible ideas of games could include:

- A trivia board game;
- Match and spell game;
- Finding clues;
- Treasure hunt

Remember – your audience is for younger children so your game will need to be adapted for their needs.

You will be playing your game or puzzle with another class!

Project is due in on Monday 1st April 2019. Have fun!
