

Bumblebee Class
Home Learning Project
November/December

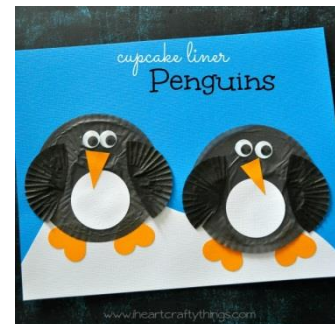

This half term our theme is 'Snow and Ice'. We are launching our theme by looking at the book 'The Emperor's Egg' – a non-fiction book about penguins. For your home learning task we would like you to research the Antarctica or the Arctic and create a piece of work which demonstrates something you have learnt.

How you present this information is entirely your choice. Be as creative as you like, but your project also needs to include a piece of writing to tell others what you have found out.

Examples include:

SHEKNOWS

Or any designs you can think of.

This home learning project is due in by Monday 3rd December 2017. Have fun.
